Self priming

EBARA International Corporation Standard Pump Division

Stainless Steel Self-Priming

B u i l t f o r t h e P r o

EBARA Pro Steel series is designed for dependable performance and rugged continuous duty service. When duty requirements demand material conformance for corrosion resistance, Pro Steel is the choice. This versatile and reliable pump is manufactured by a bulge formed process with component parts made of high quality stainless steel.

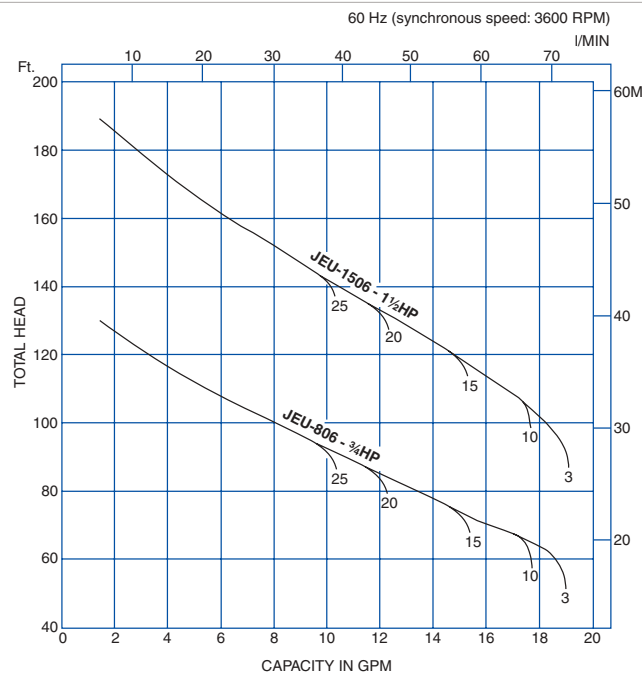

The EBARA Pro Steel end suction, self-priming centrifugal pump is engineered for the professional and built for lasting performance and value.

Whenever you need to move aqueous liquids from one place to another — choose EBARA Pro Steel.

F e a t u r e s

- **Close coupled design**
 - saves space; simplifies maintenance and installation
- **Stainless steel and Noryl liquid end components**
 - high quality; corrosion resistance
- **Versatile mounting**
 - can be installed horizontally or vertically
- **Back pullout construction**
 - assembly and overhaul of the impeller and seal without distorting suction and discharge connections
- **Top centerline discharge and foot support under casing**
 - ensures self-venting and reduces misalignment from pipe loads
- **High operating efficiency**
 - lowers operating costs
- **High quality mechanical shaft seals and o-rings**
 - available for standard pumping requirements or optional high temperature and chemical duty operation

Note: Figures in selection chart indicate suction lift (Ft.)

Applications

- Plant services
- Water supply systems
- Aqueous cleaning
- Bottle washing
- Cooling systems
- Car wash
- Ultrapure water systems
- Jockey pump services
- Sprinkler/flow irrigation
- OEM equipment application
- Pressure boosting
- Liquid transfer
- Spray systems
- Water reclamation and treatment
- General pump applications
